DHL Paket International – Information on destinations and destination

Important information for shipping with DHL PAKET International (DPI) can be found here:

General information:

- **Please note that EDI data containing individual shipment details must be sent to DHL Paket for each DHL Paket International shipment (single parcel product). A multi-parcel function is not available.**
- **Parcel weights must be measured precisely down to the last 100 grams and included in the EDI data.**
- **Strong recommendation: Include contact information (e-mail / telephone number) in the shipment details. This information can be used to respond to inquiries and improve delivery quality as well as processing times (e.g., for customs clearance). In some countries, e.g., European destinations, the electronic information can trigger other processes such as automatic notification.**
- **Messages that are not intended for the recipient are not allowed.**
- **Hazardous materials (LQ) and lithium batteries may only be shipped to some destinations and require a supplementary agreement.**

Additional information for shipments subject to customs clearance:

- **DHL Paket International is a single parcel product.**

Customs documents relevant to the shipment contents must be included with each DHL Paket International shipment shipped to destination countries that charge customs duties: *Two copies of the customs invoice and a customs declarations (CN23; for the number, see column F in the table)* . Customs information must also be filed electronically for each individual parcel. If the updated customs declaration (CN23) is used, the CP71 Dispatch Note does not have to be enclosed. Information that was previously only provided in the CP71 Dispatch Note is now included in the CN23 customs declaration following the update.

- **Combining goods from different parcels into one customs invoice / one export accompanying document is not permitted.**
- **Customs documents must be in English or the country language (see column G on the table).**

- **Customs documents must enclosed in a customs declaration pouch and securely attached to the outside of the parcel.**
- **EDI data (including any relevant customs information) must be filed electronically before pickup / handover of the shipment to DHL Paket and by 6:00 p.m. at the latest.**

- **For a dutiable value (value of the goods + shipping costs) > 1,000 EUR, the goods must be declared electronically (ATLAS / IAA Plus) with customs by the sender before their handover to DHL Paket. An individual Export Accompanying Document (EAD) must be included with each package. "DE003305" should be entered as the customs office of exit (Ausgangszollstelle).**
Each parcel must be flagged as a parcel both physically (using a yellow sticker) and in the dispatch logistics system with the export declaration.

- **Import duties and fees are always collected from the recipient. Customs duties cannot be charged to a THIRD-PARTY.**
- **Please note the import restrictions and customs regulations in the destinations and destination regions.**

Additional information for COD shipping (only specified destinations, see table):

- **An TFP3 international cash on delivery payment card (914-100-000) must be included with any DHL Paket International shipment sent COD. The card must be attached securely to the package exterior.**

All information is subject to correction and change.
